

Focused on patients' experience

NHSSurveys.org is an online portal for professionals and the public, aimed at helping to co-ordinate the NHS patient survey programme. It provides advice and tips for patients who have been asked to complete a survey as well as information on current surveys for NHS professionals. Our challenge was to improve the accessibility of the information for all audiences. The new site is built using our own Content Management System, so it's easy to keep up-to-date too.
